## 2018-19 Use of Restraint and/or Seclusion in Lincoln County School District

### Definitions

'Physical restraint' means the restriction of a student's movement by one or more persons holding the student or applying physical pressure upon the student.

'Seclusion' means the involuntary confinement of a student alone in a room from which the student is physically prevented from leaving. 'Seclusion' does not include the removal of a student for a short period of time to provide the student with an opportunity to regain self-control if the student is in a setting from which the student is not physically prevented from leaving.

### from Oregon Revised Statute 339.291:

- (1) (a) Physical restraint or seclusion may be used on a student in a public education program only if:
  - (A) The student's behavior imposes a reasonable threat of imminent, serious bodily injury to the student or others; and
  - (B) Less restrictive interventions would not be effective.
- (b) Physical restraint or seclusion may not be used for discipline, punishment or convenience of personnel of the public education program.

### Oregon Administrative Rule 581-021-0559:

### Reporting Requirements for the Use of Physical Restraint and Seclusion

- (1) Each entity that has jurisdiction over a public education program must prepare and submit to the Superintendent of Public Instruction an annual report detailing the use of physical restraint and seclusion for the preceding school year, including, at a minimum:
  - (a) The total number of incidents involving physical restraint;
  - (b) The total number of incidents involving seclusion;
  - (c) The total number of seclusions in a locked room;
  - (d) The total number of students placed in physical restraint;
  - (e) The total number of students placed in seclusion;
  - (f) The total number of seclusion rooms available; and a description, including the location of those rooms, designated solely for seclusion;
  - (g) The total number of incidents that resulted in injuries or death to students or personnel as a result of the use of physical restraint or seclusion;

(h) The number of students who were placed in physical restraint or seclusion more than 10 times in the course of a school year and an explanation of what steps have been taken by the public education program to decrease the use of physical restraint and seclusion for each student;

(i) The number of incidents in which the personnel of the public education program administering physical restraint or seclusion were not trained; and

(j) The demographic characteristics of all students upon whom physical restraint or seclusion was imposed, including race, ethnicity, gender, disability status, migrant status, English proficiency, and status as economically disadvantaged, unless the demographic information would reveal personally identifiable information about an individual student.

(2) Each entity that has jurisdiction over a public education program shall make its annual report about physical restraint and seclusion available to:

(a) The public at the entity's main office and the website of the entity;

(b) The school board or governing body overseeing the entity;

(c) If the entity is an education service district, the component school districts of the education service district;

(d) If the entity is a public charter school, the sponsor of the public charter school;

(e) Parents and guardians of students in a public education program, who shall be advised at least once each school year about how to access the report.

**Number and location of seclusion/break rooms:**

Lincoln County Schools contain a total of 29 seclusion/break rooms. These rooms are used for seclusion as described above, but are also used for self-directed student breaks. The district does not have any rooms designated solely for seclusion.

	Eligible for Free or Reduced Lunch	43	55

# incidents resulting in student injury	20
# incidents resulting in staff injury	31
# incidents resulting in student or staff death	0
# of restraints or seclusions carried out by untrained personnel	0

**Steps taken to reduce the use of physical restraint and seclusion for each student:**

- Parent and staff meetings to review, edit, or create behavior support plans.
- Training of staff in Nonviolent Crisis Intervention (NCI) to reinforce the importance of de-escalation.
- Focus on the use of self-regulation skills with students.
- Use of redirection, calming techniques, positive encouragement, breaks, visual icons, verbal cues, and timer warnings for transitions.
- Increased communications with parents/guardians. Students taught safe options and alternatives to running away.
- Modification of students' schedules to avoid triggering situations.

**District plans for reduction in number of physical restraint and seclusion incidents in the 2019-20 school year include:**

- Wraparound services coordination with county health department, local mental health services and the Linn-Benton-Lincoln ESD.
- Training of staff to conduct Functional Behavior Assessments.
- Continued monitoring of Behavior Support Plans and adjustment of plans as needed.
- Additional staff training in NCI de-escalation techniques.
- Implementation of district-wide Positive Behavioral Intervention Supports (PBIS).
